To Whom it may concern:

Since no changes were made to SB 774 the Form 6 legislation, I am suspending my Mayoral Campaign. As I said before, this legislation could be harmful to my family and is a complete invasion of my privacy. The thought that this form gives transparency to a city government's council consisting of seven members making \$10,000 a year is ridiculous. Some people run for office based on their love of community wanting to improve their city and not for the money like those who sponsored or voted for this bill because they were paranoid of misappropriations of funds and corruption. They really should look in their own backyard.

Thank you for all the assistance your office provides. I will miss being part of making Orange City the hometown I once grew up in.

Respectfully,

A handwritten signature in blue ink, appearing to read "William R. O'Connor". The signature is stylized with a large, looping "O" and a long horizontal stroke at the end.

William R. O'Connor
