To whom it may concern,

It is with deep regret that I must submit my resignation as a candidate for the City of Deltona Commission District 1 seat. It is my desire to fully support my party and the platforms that the party was founded on. With that in mind it, is in parties' best interest to provide the public with candidates that show unity in the party, and not division. It is not in the best interest to provide two choices with like goals. For this reason, and this reason alone, I am submitting withdrawal from the campaign.

Sincerely,

Becky Gibson
